(54) Title: ELECTRONIC PERSONAL DEVICE

(57) Abstract: The present invention relates to an electronic personal device comprising: a central processing unit (10), interface means for providing access to a memory area (11) for storing personal information data of the owner of the electronic device, a user interface (13) having at least input means (14) for inputting operating commands, and output means (15) for outputting information data, locking means (17) for locking the electronic device to prevent unauthorized use thereof if activated. To enable any third person to operate the electronic personal device without any authorization but only in a limited manner to retrieve personal information about the owner of the device easily, retrieving means (18) are provided for operating the electronic device to retrieve the personal information data stored in the memory area (11), even if the locking means (17) are activated.

**A. CLASSIFICATION OF SUBJECT MATTER**  
IPC 7 H04L29/08

According to International Patent Classification (IPC) or to both national classification and IPC

**B. FIELDS SEARCHED**

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 H04M H04L

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

WPI Data, EPO-Internal, PAJ

## \* Special categories of cited documents :

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the international filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the international filing date but later than the priority date claimed

- \*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- \*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- \*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- \*Z\* document member of the same patent family
